

HOW TO ASSEMBLE THE TOY SOLDIER

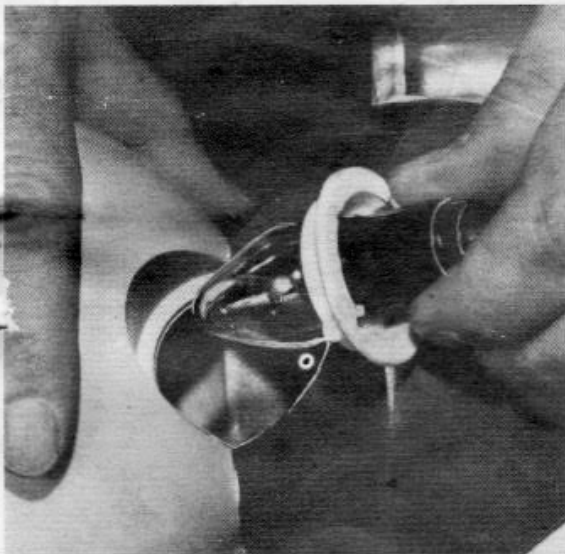

Remove wing nut and washer from bolt and insert bolt through hole in flat plastic piece (the base). Fit bolt firmly into V-notch formed by feet, replace washer and wing nut and tighten. (Fig. 1)

To install light, put plug end of bulb through hole in white plastic plug. Flat side of plastic piece should face toward bulb. Screw bulb firmly into socket and insert bulb into hole at back of soldier's head. (Fig. 2) A slight turn of the plastic plug will lock lighting assembly in place.
